Quick Setup Guide for Network Printer

- Brother -

11. Select “Wired Network Connection (Ethernet)” and Click on “Next”.

* When you directly connect the PC to the Printer using USB cable, select “Local Connection (USB)”. Then, skip to 15.

12. Select “Brother Peer-to-Peer Network Printer” and Click on “Next”.

13. If “No devices could be found over the network” message is displayed, click on “No”.

14. Select “Specify your machine by address (Advanced Users)” and input the printer’s IP address. And click on “Next”.

* In case of Color Printer, please set up the following setting.

15. Open Printer Configuration from “Device and Printers (Printers)” in the “Control Panel”.

16. Double click on the installed printer icon.

17. Select “Properties” in “Printer” of the upper menu.

18. Change the following setting in “Basic Settings” button in “General” upper menu and “Standard Settings” button in “Advanced Settings” upper menu.

- Colour / Mono: Mono
